Weekly Study Digest

June 1 – June 7, 2026

15 Questions . Detailed Solutions with Shortcuts

& Quick Reference

Key Formulas & Shortcuts:

- Child Development: Piaget (Sensorimotor -> Formal), Vygotsky (ZPD), Kohlberg (Moral stages)
- Pedagogy: Teaching methods (Inductive/Deductive), Assessment types (Formative/Summative)
- Percentage: Profit% = (Profit/CP) x 100 | Discount% = (Discount/MP) x 100
- Area: Circle = $\pi \times r^2$, Rectangle = $l \times b$, Triangle = $(1/2) \times b \times h$
- English: Active-Passive, Direct-Indirect Speech, Tenses, Subject-Verb Agreement

Weekly Strategy: Child Development & Pedagogy is the core subject - 30 questions. Master Piaget, Vygotsky, and Kohlberg theories first.

Child Development & Pedagogy

1

According to Kohlberg, what is the highest stage of moral development?

- ☐ A. Pre-conventional level
- ☐ B. Conventional level
- ☒ C. Post-conventional level
- ☐ D. Transcendental level

Correct: C

Detailed Solution

Kohlberg's theory of moral development proposes that the highest stage of moral development is the post-conventional level, where individuals develop a sense of social contract and universal principles.

Environmental Studies

2

What is the term for the natural processes that occur in an ecosystem, such as decomposition and nutrient cycling?

- ☒ A. Biogeochemical cycles
- ☐ B. Ecosystem services
- ☐ C. Food chains
- ☐ D. Habitat destruction

' Correct: A

Detailed Solution

Biogeochemical cycles refer to the natural processes that occur in an ecosystem, such as decomposition and nutrient cycling, which are essential for maintaining the health and balance of the ecosystem.

Environmental Studies

3

What is the main function of the atmosphere in the environment?

- ☒ A. To regulate the Earth's temperature and climate
- ☐ B. To produce oxygen and support life
- ☐ C. To provide habitat and shelter for a diverse range of species
- ☐ D. To control the water cycle and prevent flooding

' Correct: A

Detailed Solution

The main function of the atmosphere is to regulate the Earth's temperature and climate, which is essential for maintaining a stable and habitable environment.

Language

4

What is the term for the repetition of initial consonant sounds in words that are close together?

- ☒ A. Alliteration
- ☐ B. Assonance
- ☐ C. Consonance
- ☐ D. Onomatopoeia

' Correct: A

Detailed Solution

The term 'alliteration' refers to the repetition of initial consonant sounds in words that are close together, such as 'sweet silver slippers'.

Mathematics

5

What is the formula for finding the area of a rectangle?

- ☐ A. Length + Width
- ☒ B. Length x Width
- ☐ C. Length - Width
- ☐ D. Length / Width

' Correct: B

Detailed Solution

The area of a rectangle is calculated by multiplying its length and width.

Environmental Studies

6

What is the term for the variety of different species of plants, animals, and microorganisms that live in an ecosystem?

- ☒ A. Biodiversity
- ☐ B. Ecosystem
- ☐ C. Habitat
- ☐ D. Conservation

' Correct: A

Detailed Solution

Biodiversity refers to the variety of different species of plants, animals, and microorganisms that live in an ecosystem, and is an important aspect of environmental studies.

Language

7

What is the term for the process of learning to read and write?

- ☐ A. Language acquisition
- ☒ B. Literacy development
- ☐ C. Communication skills
- ☐ D. Grammar rules

' Correct: B

Detailed Solution

Literacy development refers to the process by which individuals learn to read and write, and is a crucial aspect of language development.

Mathematics

8

What is the formula for the surface area of a sphere?

- ☐ A. $A = 2\pi r^2$
- ☐ B. $A = 3\pi r^2$
- ☒ C. $A = 4\pi r^2$
- ☐ D. $A = 5\pi r^2$

Correct: C

Detailed Solution

The formula for the surface area of a sphere is $A = 4\pi r^2$, where A is the surface area and r is the radius of the sphere.

Environmental Studies

9

What is the term for the movement of water from the ground to the atmosphere through plants?

- ☐ A. Evaporation
- ☒ B. Transpiration
- ☐ C. Condensation
- ☐ D. Precipitation

Correct: B

Detailed Solution

The term 'transpiration' refers to the movement of water from the ground to the atmosphere through plants, which is an important part of the water cycle.

Child Development & Pedagogy

10 According to Kohlberg's theory, what is the highest stage of moral development?

- ☐ A. Preconventional stage
- ☐ B. Conventional stage
- ☒ C. Postconventional stage
- ☐ D. Autonomous stage

' Correct: C

Detailed Solution

According to Kohlberg's theory, the postconventional stage is the highest stage of moral development, where individuals develop a sense of social justice and universal principles.

Mathematics

11 What is the concept of equivalent ratios in mathematics?

- ☐ A. Ratios that are identical and have the same value
- ☒ B. Ratios that are different but have the same value
- ☐ C. Ratios that are proportional but not equal
- ☐ D. Ratios that are unequal and have no relationship

' Correct: B

Detailed Solution

Equivalent ratios refer to ratios that are different but have the same value, such as 1:2 and 2:4.

Language

12 What is the term for words that have the same spelling but different meanings?

- ☐ A. Homophones
- ☒ B. Homographs
- ☐ C. Homonyms
- ☐ D. Synonyms

' Correct: B

Detailed Solution

Homographs refer to words that have the same spelling but different meanings, such as bank (financial institution) and bank (riverbank).

Child Development & Pedagogy

13 According to Vygotsky's theory, what is the term for the gap between what a child can do independently and what they can do with the guidance of a more knowledgeable other?

- ☒ A. Zone of proximal development
- ☐ B. Zone of actual development
- ☐ C. Zone of potential development
- ☐ D. Zone of independent development

' Correct: A

Detailed Solution

According to Vygotsky's theory, the zone of proximal development refers to the gap between what a child can do independently and what they can do with the guidance of a more knowledgeable other, and is a key concept in understanding how children learn and develop.

Environmental Studies

14 What is the term for the natural process by which water moves through a plant, from the roots to the leaves, and is then released into the air as water vapor?

- ☐ A. Respiration
- ☐ B. Photosynthesis
- ☒ C. Transpiration
- ☐ D. Evaporation

' Correct: C

Detailed Solution

The term 'transpiration' refers to the natural process by which water moves through a plant, from the roots to the leaves, and is then released into the air as water vapor, which is an important part of the water cycle.

Child Development & Pedagogy

15 According to Piaget's theory of cognitive development, what is the name of the stage where children develop the ability to think logically and solve problems using symbols and language?

- ☐ A. Sensorimotor stage
- ☐ B. Preoperational stage
- ☒ C. Concrete operational stage
- ☐ D. Formal operational stage

' Correct: C

Detailed Solution

According to Piaget's theory, the concrete operational stage is where children develop the ability to think logically and solve problems using symbols and language.

Study Tips

Maximize your preparation with these strategies:

[R] Review Thoroughly

Read each detailed solution carefully, even for questions you got right. The shortcuts and alternative methods will save you time on exam day.

[P] Practice Similar Problems

After reviewing, solve 2-3 similar problems on the same topic. Pattern recognition is the key to speed in competitive exams.

[S] Master the Shortcuts

The shortcuts in these solutions are battle-tested. Practice them until they become automatic. A 30-second shortcut can decide your rank.

[T] Track Accuracy & Speed

Note time per question. If a question takes more than 2 minutes, flag it. Review why it took long - was it the concept or the calculation?

[F] Focus on Weak Areas

Use the Topic Analysis to identify weak spots. Dedicate extra sessions to those topics before moving to new material.

[E] Simulate Exam Conditions

Take timed mock tests on vlymbooq. Real exam simulation reduces anxiety and builds the mental stamina needed for 2-3 hour papers.
