

UPSC CSE

Weekly Study Digest

June 1 – June 7, 2026

15 Questions . Detailed Solutions with Shortcuts

Topic Analysis

1. Topics Covered - *Average speed calculation*, *biology*, *Indian history*, *basic arithmetic*, *environment*, *economics*, *politics*, *literature*
2. Difficulty Breakdown - 40% easy, 30% medium, 30% hard
3. Key Concepts - *Formulas for average speed*, *basic biology concepts*, *Indian history and politics*
4. Common Mistakes - *Incorrect formula application*, *insufficient knowledge of basic concepts*
5. Study Tips - *Practice basic arithmetic and formula application*, *review Indian history and politics*

& Quick Reference

6. Key Formulas & Shortcuts - *Average speed = total distance / total time*, *profit = selling price - cost price*
7. Weekly Strategy - *Focus on mastering basic arithmetic and formula application this week*

CSAT

- 1 If a car travels from city A to city B at an average speed of 60 km/h and returns at an average speed of 40 km/h, what is the average speed for the entire trip?

- ☒ A. 48 km/h
☐ B. 50 km/h
☐ C. 55 km/h
☐ D. 60 km/h

Correct: A

Detailed Solution

To find the average speed for the entire trip, we need to find the total distance traveled and the total time taken. Since the distance from A to B is the same as the distance from B to A, we can let the distance be x . The time taken to travel from A to B is $x/60$ and the time taken to travel from B to A is $x/40$. The total time is $x/60 + x/40 = (2x + 3x)/120 = 5x/120 = x/24$. The average speed is total distance/total time = $2x/(x/24) = 48$ km/h.

General Studies

2 The term 'Homo sapiens' refers to which species?

- ☐ A. Chimpanzees
- ☐ B. Neanderthals
- ☒ C. Modern humans
- ☐ D. Cro-Magnon

' Correct: C

Detailed Solution

The term 'Homo sapiens' refers to modern humans, who are the only living species of the genus Homo.

General Studies

3 The concept of 'dyarchy' was introduced in India by the:

- ☒ A. Montagu-Chelmsford Reforms
- ☐ B. Morley-Minto Reforms
- ☐ C. Simon Commission
- ☐ D. Government of India Act, 1935

' Correct: A

Detailed Solution

The concept of 'dyarchy' was introduced in India by the Montagu-Chelmsford Reforms of 1919, which divided the subjects into 'transferred' and 'reserved' categories.

CSAT

4

If a bakery sells 250 loaves of bread per day and each loaf costs \$2.50, what is the total daily revenue?

- ☐ A. \$500
- ☒ B. \$625
- ☐ C. \$750
- ☐ D. \$1000

' Correct: B

Detailed Solution

To find the total daily revenue, we multiply the number of loaves sold (250) by the cost per loaf (\$2.50): $250 * \$2.50 = \625 .

General Studies

5

The process of water moving through a plant, from the roots to the leaves, and being released into the air as water vapor is called

- ☐ A. Respiration
- ☐ B. Photosynthesis
- ☒ C. Transpiration
- ☐ D. Evaporation

' Correct: C

Detailed Solution

The process of water moving through a plant, from the roots to the leaves, and being released into the air as water vapor is called transpiration.

CSAT

6

If a car travels from city A to city B at 60 km/h and returns at 40 km/h, what is its average speed?

- ☒ A. 48 km/h
- ☐ B. 50 km/h
- ☐ C. 55 km/h
- ☐ D. 60 km/h

' Correct: A

Detailed Solution

The average speed is calculated as total distance divided by total time. Let's assume the distance between city A and city B is 120 km. The car takes 2 hours to travel from A to B and 3 hours to return. The total distance traveled is 240 km, and the total time taken is 5 hours. The average speed is $240 \text{ km} / 5 \text{ hours} = 48 \text{ km/h}$.

Current Affairs

7

The 'Swachh Bharat Abhiyan' is a national campaign launched by the Government of India to

- ☐ A. promote renewable energy
- ☐ B. improve rural healthcare
- ☐ C. eradicate poverty
- ☒ D. improve sanitation and cleanliness

' Correct: D

Detailed Solution

The 'Swachh Bharat Abhiyan' is a national campaign launched by the Government of India to improve sanitation and cleanliness, with the goal of achieving a clean and hygienic India.

CSAT

8 A bakery sells 250 loaves of bread per day. They make a profit of Rs. 2 per loaf. If the cost price of 100 loaves is Rs. 500, what is the total daily profit?

- ☒ A. Rs. 500
☐ B. Rs. 1000
☐ C. Rs. 1500
☐ D. Rs. 2000

' Correct: A

Detailed Solution

The cost price of 250 loaves is Rs. 1250. The selling price is Rs. 2 more than the cost price per loaf, so the total revenue is Rs. $250 \times (\text{cost price} + \text{Rs. } 2) = \text{Rs. } 250 \times (5 + 2) = \text{Rs. } 1750$. The total daily profit is Rs. $1750 - \text{Rs. } 1250 = \text{Rs. } 500$.

General Studies

9 The ancient Indian epic, the Mahabharata, is attributed to the sage

- ☒ A. Vyasa
☐ B. Valmiki
☐ C. Ved Vyas
☐ D. Tulsidas

' Correct: A

Detailed Solution

The ancient Indian epic, the Mahabharata, is attributed to the sage Vyasa.

Current Affairs

10 Which of the following countries has the largest number of billionaires in the world?

- ☒ A. United States
- ☐ B. China
- ☐ C. India
- ☐ D. Russia

' Correct: A

Detailed Solution

According to the Forbes Billionaires List, the United States has the largest number of billionaires in the world.

Current Affairs

11 The 'Ayushman Bharat' scheme was launched by the Government of India in:

- ☒ A. 2018
- ☐ B. 2017
- ☐ C. 2016
- ☐ D. 2015

' Correct: A

Detailed Solution

The Ayushman Bharat scheme, also known as the Pradhan Mantri Jan Arogya Yojana, was launched by the Government of India on September 23, 2018, to provide health insurance to economically vulnerable families.

CSAT

12

A company has 100 employees, and the average salary is Rs. 50,000 per month. If 20 new employees are hired at an average salary of Rs. 55,000 per month, what is the new average salary of all employees?

- ☐ A. Rs. 50,500
☐ B. Rs. 50,900
☒ C. Rs. 51,000
☐ D. Rs. 52,000

' Correct: C

Detailed Solution

The total salary of the original 100 employees is Rs. $50,000 \times 100 = \text{Rs. } 5,000,000$. The total salary of the 20 new employees is Rs. $55,000 \times 20 = \text{Rs. } 1,100,000$. The total salary of all 120 employees is Rs. $5,000,000 + \text{Rs. } 1,100,000 = \text{Rs. } 6,100,000$. The new average salary is Rs. $6,100,000 / 120 = \text{Rs. } 50,833.33$, which is approximately Rs. 51,000.

CSAT

13

A bat and a ball together cost Rs. 100. The bat costs Rs. 20 more than the ball. How much does the ball cost?

- ☒ A. Rs. 40
☐ B. Rs. 50
☐ C. Rs. 60
☐ D. Rs. 70

' Correct: A

Detailed Solution

Let the cost of the ball be x . Then the cost of the bat is $x + 20$. The total cost is $x + (x + 20) = 100$. Solving for x , we get $2x + 20 = 100$, $2x = 80$, $x = 40$.

Current Affairs

14 The 'Paris Agreement' is an international agreement on:

- ☒ A. Climate change
- ☐ B. Biodiversity conservation
- ☐ C. Nuclear disarmament
- ☐ D. Human rights

' Correct: A

Detailed Solution

The Paris Agreement is an international agreement on climate change, adopted by nearly 200 countries in 2015, which aims to mitigate global warming by reducing greenhouse gas emissions.

Current Affairs

15 What is the name of the Indian government's scheme to provide health insurance to poor families?

- ☒ A. Ayushman Bharat
- ☐ B. Pradhan Mantri Jan Arogya Yojana
- ☐ C. National Health Mission
- ☐ D. Rashtriya Swasthya Bima Yojana

' Correct: A

Detailed Solution

Ayushman Bharat, also known as Pradhan Mantri Jan Arogya Yojana, is a scheme to provide health insurance to poor families.

Study Tips

Maximize your preparation with these strategies:

[R] Review Thoroughly

Read each detailed solution carefully, even for questions you got right. The shortcuts and alternative methods will save you time on exam day.

[P] Practice Similar Problems

After reviewing, solve 2-3 similar problems on the same topic. Pattern recognition is the key to speed in competitive exams.

[S] Master the Shortcuts

The shortcuts in these solutions are battle-tested. Practice them until they become automatic. A 30-second shortcut can decide your rank.

[T] Track Accuracy & Speed

Note time per question. If a question takes more than 2 minutes, flag it. Review why it took long - was it the concept or the calculation?

[F] Focus on Weak Areas

Use the Topic Analysis to identify weak spots. Dedicate extra sessions to those topics before moving to new material.

[E] Simulate Exam Conditions

Take timed mock tests on vlymbooq. Real exam simulation reduces anxiety and builds the mental stamina needed for 2-3 hour papers.
