Agniveer Practice Set 5

Reasoning

Q1. Pointing to a photograph, a man said, "I have no brother or sister, but that man's father is my father's son." Whose photograph was it?

- A. His own son
- B. His father
- C. His uncle
- D. His nephew

' Correct: A

%- The phrase 'my father's son' refers to the man himself, as he has no brothers or sisters. Therefore, 'that man's father is me'. This means the man in the photograph is his son.

General Knowledge

Q2. Which of the following rivers flows through the state of Rajasthan and is known as the 'Saraswati' of the west?

- A. Sabarmati
- B. Luni
- C. Mahi
- D. Chambal

' Correct: B

%- The Luni River originates in the Aravalli Range and flows through Rajasthan before disappearing into the Rann of Kutch in Gujarat. It is often referred to as the 'Saraswati' of the west due to its historical significance and its role as a lifeline in an arid region.

Science

Q3. Which of the following is an example of a non-renewable resource?

- A. Solar energy
- B. Wind energy
- C. Natural gas
- D. Hydropower

' Correct: C

%- Non-renewable resources are those that are consumed much faster than they can be replenished. Natural gas is a fossil fuel formed over millions of years and is finite. Solar, wind, and hydropower are renewable energy sources.

General Knowledge

Q4. Who was the first Indian woman to win a medal at the Olympics?

- A. P.T. Usha
- B. Saina Nehwal
- C. Mary Kom
- D. Karnam Malleswari

' Correct: D

%· Karnam Malleswari won a bronze medal in weightlifting at the 2000 Sydney Olympics, becoming the first Indian woman to achieve this feat.

Mathematics

Q5. If the sum of the first 'n' odd natural numbers is 225, then what is the value of 'n'?

- A. 10
- B. 12
- C. 15
- D. 20

' Correct: C

%· The sum of the first 'n' odd natural numbers is given by the formula n^2 . Therefore, $n^2 = 225$. Taking the square root of both sides, we get $n = \sqrt{225} = 15$.

Science

Q6. Which part of the human body is responsible for filtering blood and producing urine?

- A. Liver
- B. Lungs
- C. Kidneys
- D. Heart

' Correct: C

%· The kidneys are vital organs that filter waste products and excess water from the blood to produce urine, maintaining the body's fluid and electrolyte balance.

Mathematics

Q7. The radius of a circle is 7 cm. What is its circumference? (Take $\pi = \frac{22}{7}$)

- A. 22 cm
- B. 44 cm
- C. 14 cm
- D. 88 cm

' Correct: B

%· The formula for the circumference of a circle is $C = 2\pi r$. Given $r = 7$ cm and $\pi = \frac{22}{7}$, $C = 2 * (\frac{22}{7}) * 7 = 2 * 22 = 44$ cm.

Reasoning

Q8. Complete the series: 2, 5, 10, 17, 26, ?

- A. 37
- B. 35
- C. 39
- D. 38

' Correct: A

%· The pattern involves adding consecutive odd numbers: $2 (+3) = 5$, $5 (+5) = 10$, $10 (+7) = 17$, $17 (+9) = 26$. The next number to add is 11. So, $26 + 11 = 37$.

Mathematics

Q9. A shopkeeper sells an item for Rs. 800 after giving a discount of 20% on its marked price. What is the marked price of the item?

- A. Rs. 960
- B. Rs. 1000
- C. Rs. 900
- D. Rs. 1020

' Correct: B

%· Let the Marked Price (MP) be X. A 20% discount means the selling price (SP) is 80% of the MP. So, $0.80 * X = \text{Rs. } 800$. $X = 800 / 0.80 = \text{Rs. } 1000$. The marked price is Rs. 1000.

General Knowledge

Q10. Who was the founder of the Maurya Empire?

- A. Bindusara
- B. Ashoka
- C. Chandragupta Maurya
- D. Samudragupta

' Correct: C

%· Chandragupta Maurya founded the Maurya Empire in ancient India around 322 BCE after overthrowing the Nanda Dynasty.

Week in Review

This week's digest covered 10 questions across 1 exams.

Exams covered: Agniveer (10 Q)

Review Strategy:

1. Review questions you got wrong and understand the solution thoroughly
2. Practice similar problems from each topic to reinforce concepts
3. Time yourself when attempting questions to simulate exam conditions
4. Track your accuracy across weeks to measure improvement
5. Focus on weak areas identified in the topic analysis sections
